Index of Subjects

Abomasal mucosa, an ultrastructural study of in sheep infected with *Haemonchus contortus*, 357
Acaricide-impregnated ear tags, use of in control of brown ear tick in cattle, 391
Acathocephala spp., site segregation by, 375
Amino acid levels, correlation with *Nippostrongylus brasiliensis* infection in rats fed adequate or protein-deficient diets, 157
Ancylostoma tubaeforme, activities of glycolytic and tricarboxylic acid cycle enzymes in, 169
Anguilla anguilla, site segregation of Acanthocephala spp. in, 375
Antigen, expression of by *Trypanosoma brucei*, 79
Anti-protozoal activity, of some novel hydroxynaphthoquinones, 45
Artificial infestation, of cattle with *Rhipicephalus appendiculatus*, 21
Attenuated cercariae, induce specific immunity against *Schistosoma japonicum* in mice, 313
Avian haemocytozoon, description of new subgenus and new species of, from Venezuela, 217

Babesia spp., interaction of with *Trypanosoma brucei* and *Plasmodium* spp. in mice, 241
Biochemical changes, in serum components in *Mesocestoides corti*-infected rats, 441
Biochemistry, of adult *Schistosoma mansoni* worms, effect of *in vitro* maintenance on, 339
Body weight, effect of *Taenia crassiceps* infection on in mice, 449
Brown ear tick, control of in cattle, using acaricide-impregnated ear tags, 391
  cumulative effects of host resistance on, 401
Bufo marinus, population distribution of helminths in, 457

Callithrix jacchus, infection of by *Plasmodium brasilianum*, 573
Central nervous system, involvement of in goats with *Trypanosoma brucei* infections, 255
Cephalic sense organs, the distribution of in *Raillietiella* spp., 411
Characterization, of the tegument of *Echinococcus granulosus*, 111
Chemotherapy, effect of on migration of *Schistosoma mansoni* in mice, 519
  relapse *Trypanosoma brucei* infections after, in goats, 255
Clones of *Toxoplasma*, sexual reproduction in, 35
Control, of the brown ear tick in cattle, using acaricide-impregnated ear tags, 391
Copepod parasites, of deep-sea fishes from the western North Atlantic, 485
Cytochrome oxidase, cytochemical localization of in parasitic nematodes, 145

Deep-sea fishes, a study of the copepod parasites of, 485
Development, a study of surface changes during in *Dipetalonema viteae*, 351
  of *Myxobolus cyprini* in its fish host, 549
  of the spermatozoon of *Nematospiroides dubius*, 179
  of the tegument and gut of *Fellodistomum fellis*, 193
Diet, effect of on the relationship between amino acid levels and *Nippostrongylus brasiliensis* infection in rats, 157
Digenea, infestation of littorinids by, 277
Digestive processes, in *Plasmodium chabaudi*, 579
Dipetalonema viteae, developmental surface changes in, 351
Distribution, of cephalic sense organs in *Raillietiella* spp., 411
DNA restriction fragment length differences, use of in the identification of nematode spp., 137
Drug attenuation, of *Schistosoma mansoni* induces resistance, 325

Echinococcus granulosus, characterization of the tegument of, 111
Echinostoma liei, effect of temperature on the transmission of, 269
Eimeria acervulina, is not synergistic with previous *Plasmodium gallinaceum* infection in chickens, 237
Eimeria-infected tissues, lethality of extracts of, 565
Eimeria spp., selective toxicity of hydroxynaphthoquinones against, 45
Eimeria vermiformis, development of in the rat, 557
Eimerian coccidia, host specificity of, 557
Enzyme variation, in *Trypanosoma brucei* ssp., 89
Enzymes, electrophoretic variation of in *Trypanosoma brucei* ssp., 89

Faecal samples, preservation of with sodium azide, 463
Fallisia (*Plasmodioides*) *neotropicalis*, subgen.nov. sp.nov., 217
Fecundity, genetic influence on in *Schistosoma mansoni* in mice, 289
Fellodistomum fellis, development of the tegument and gut of, 193
Fibronectin, from human plasma inhibits *Plasmodium falciparum* invasion *in vitro*, 227
Fluorescent probe, as an indicator of membrane changes in *Schistocephalus solidus*, 135
Food intake, effect of *Taenia crassiceps* infection on in mice, 449

Genetic factors, influence of on response of mice to *Schistosoma mansoni*, 289
Globodera spp., immunochemical studies on the pathotypes of, 471
Glycolytic enzymes, activity of in developing larval stages of *Ancylostoma tubaeforme* and *Haemonchus contortus*, 169

Haemocytes, of *Tenebrio molitor* phagocytose the microvilli of *Hymenolepis diminuta* metacestodes, 365
Haemonchus contortus, activities of glycolytic and tricarboxylic acid cycle enzymes in, 169
morphological changes induced by in the abomasal mucosa of infected sheep, 357
Host death, effect of on parasite survival, 529
Host life-history, variation of in response to parasitism, 205
Host resistance, cumulative effects of on *Rhipicephalus appendiculatus*, 401
Host specificity, in eimerian coccidia, 557
Hydroxynaphthoquinones, potent broad spectrum anti-protozoal activity of, 45
Hymenolepis diminuta, interaction of with *Raillietina cesticillus* in their intermediate host, 421
phagocytosis of the metacestode microvilli by *Tenebrio molitor* haemocytes, 365

Ichthyophthirius multifiliis, an experimental study of the effects of host death on the survival of, 529
Identification, of nematode species by DNA restriction fragment length differences, 137
Immunochemical studies, on the pathotypes of *Globodera rostochiensis* and *G. pallida*, 471
Infestation, of cattle with *Rhipicephalus appendiculatus*, 21
of littorinids by larval Digenea, 277
Inheritance, of responses to *Schistosoma mansoni* in mice, 289
Invasion, inhibition of for *Plasmodium falciparum* by human plasma fibronectin, 227
Irradiated infections, of *Schistosoma mansoni* induce resistance in mice, 301
Isoenzymes, electrophoretic comparison of between *Leishmania tarentolae* and *Trypanosoma platydactyli*, 67
Isospora (*Toxoplasma*) *gondii*, sexual reproduction in, 35

Kato analysis, use of sodium azide as a preservative of faecal samples for, 463
Leishmaniasis, possible role of gut-infected sandflies in the transmission of, 57
Leishmania tarentolae Weynon 1921, is synonymous with *Trypanosoma platydactyli* Catouillard 1909, 67
Lethality, of *Eimeria*-infected tissue extracts, 565
Life-history, variation of in the host in response to parasitism, 205
Littorinids, infestation of by larval Digenea, 277
Localization, of cytochrome oxidase in parasitic nematodes, 145
Low temperature preservation, of *Plasmodium* spp., 589

Maintenance *in vitro*, effect of on the physiology and biochemistry of adult *Schistosoma mansoni*, 339
Membrane fluorescence, as an indicator of changes in membrane properties, 135
Mesocestoides corti, effect of on serum biochemistry of infected rats, 441
Mesocoelium monas, population distribution of in *Bufo marinus*, 457
Microsporidia, transmission mechanisms of between generations of winter moth, 11
Migration, of *Schistosoma mansoni* in mice after chemotherapy, 519
Morphological changes, an ultrastructural study of in *Haemonchus contortus*-infected sheep, 357
Morphology, comparison of between *Leishmania tarentolae* and *Trypanosoma platydactyli*, 67
Myxobolus cyprini, pathogenicity and development of in its fish host, 549

Nematode spp., cytochemical localization of cytochrome oxidase in, 145
identification of by DNA restriction fragment length differences, 137

Nematospiroides dubius, structure and development of the spermatozoon of, 179
New species, *Fallisia* (*Plasmodioides*) *neotropicalis*, 217
of copepod parasites from deep-sea fishes, 485
New subgenus, *Fallisia* (*Plasmodioides*) *neotropicalis*, 217
Nippostrongylus brasiliensis, effect of nutrition on protein metabolism in rats infected by, 157
Nutrition, effect of in *Nippostrongylus brasiliensis*-infected rats, 157
effect of *Taenia crassiceps* infection on in mice, 449

Obligatory multiparasitism, in tussock moths, 1
Ochoterenella digiticauda, population distribution of in *Bufo marinus*, 457
Operophtera brumata, transmission of the microsporidia of, 11
Orgyia leucostigma, obligatory multiparasitism in, 1
Orthosoma operophterae, transmission of the microsporidia of, 11
Oxamniquine, induces resistance to *Schistosoma mansoni* in mice, 325

Parasite survival, of host death, models describing, 529
Parasitism, variation in host life-history in response to, 205
Pathogenicity, of *Myxobolus cyprini* in its fish host, 549
Pathotypes, of *Globodera rostochiensis* and *G. pallida*, immunochemical studies, 471
Penetrocephalus ganapatii, characterization of phenol oxidase in, 433
Peptide mapping, use of to study developmental surface changes in *Dipetalonema viteae*, 351
Phagocytosis, of *Hymenolepis diminuta* metacestode microvilli by *Tenebrio molitor* haemocytes, 365
Phenol oxidase, characterization of in *Penetrocephalus ganapatii*, 433
Physiology, of adult *Schistosoma mansoni* worms, effect of *in vitro* maintenance on, 339
Plasmodium brasilianum, in the common marmoset, *Callithrix jacchus*, 573
Plasmodium chabaudi, ingestion of erythrocytic stroma by, 579
Plasmodium falciparum, inhibition of invasion of by human plasma fibronectin, 227
Plasmodium gallinaceum, and subsequent *Eimeria acervulina* infections in chickens are not synergistic, 237
Plasmodium spp., effect of *Trypanosoma brucei* and *Babesia* spp. on in mice, 241
low temperature preservation of, 589
selective toxicity of hydroxynaphthoquinones against, 45
Population distribution, of helminths in *Bufo marinus*, 457
Preservation, of faecal samples with sodium azide, 463
of *Plasmodium* spp. by low temperature, 589

Raillietina cesticillus, interaction of with *Hymenolepis diminuta* in their intermediate host, 421
Raillietiella spp., distribution of cephalic sense organs in, 411
Resistance, attempts to transfer from *Schistosoma mansoni*-infected mice, 301
cumulative effects of on *Rhipicephalus appendiculatus* in the laboratory, 401
induced by highly irradiated infections of *Schistosoma mansoni*, 301
induction of in mice to *Schistosoma mansoni* by chemotherapy, 519
induction of to schistosomiasis in baboons, 101
to *Schistosoma mansoni* induced by drug attenuation, 325
Rhipicephalus appendiculatus, control of using acaricide-impregnated ear tags, 391
cumulative effects of host resistance on, 401
effects of artificial infestations of on cattle, 21
Ro 11-3128, induces resistance to *Schistosoma mansoni* in mice, 325

Sandflies, possible role of gut infections of on the transmission of leishmaniasis by, 57
Schistocephalus solidus, temperature adaptation in, 131
Schistosoma haematobium, induction of resistance to in baboons using non-specific immunostimulants, 101
surface antigens of the schistosomulum of, 499
Schistosoma japonicum, induction of specific immunity against in mice, 313
Schistosoma mansoni, effect of maintenance *in vitro* on the physiology and biochemistry of, 339
highly irradiated infections of induce resistance in mice, 301
induction of resistance to in baboons using non-specific immunostimulants, 101
induction of resistance to in mice by chemotherapy, 519

inheritance of responses to in mice, 289
resistance to following drug attenuation, 325
Schistosomiasis, non-specific immunity to in baboons, 101
Schistosomulum, surface antigens of in *Schistosoma haematobium*, 499
Serum biochemistry, changes in caused by *Mesocestoides corti* infection in rats, 441
Sexual reproduction, in clones of *Toxoplasma*, 35
Site segregation, by freshwater acanthocephalan spp., 375
Specific immunity, induction of against *Schistosoma japonicum* in mice, 313
Spermatogenesis, in *Nematospiroides dubius*, 179
Structure, of the spermatozoon of *Nematospiroides dubius*, 179
Surface antigens, of the schistosomulum of *Schistosoma haematobium*, 499
Surface changes, a study of during development in *Dipetalonema viteae*, 351
Survival, of parasites following host death, 529
Synergism, between malarial and coccidial infections in chickens cannot be confirmed, 237

Taenia crassiceps, effect of on mouse nutrition, 449
Tegument, development of in *Fellodistomum fellis*, 193
Tegumental surface, isolation and partial characterization of from *Echinococcus granulosus*, 111
Temperature adaptation, in *Schistocephalus solidus*, 131
Temperature, effect of on the transmission of *Echinostoma liei* cercariae, 269
Tenebrio molitor haemocytes, phagocytosis of *Hymenolepis diminuta* metacestode microvilli by, 365
Theileria spp., selective toxicity of hydroxynaphthoquinones against, 45
Transmission, effect of temperature on for *Echinostoma liei* cercariae, 269
of leishmaniasis, possible role of sandfly gut infections on, 57
of microsporidia betweèn generations of winter moth, 11
Tribolium confusum, interactions of *Hymenolepis diminuta* and *Raillietina cesticillus* in, 421
Tricarboxylic acid cycle enzymes, activity of in developing larval stages of *Ancylostoma tubaeforme* and *Haemonchus contortus*, 169
Trypanosoma brucei, antigen expression by, 79
effect of on the central nervous system of goats, 255
interaction of with *Babesia* spp. and *Plasmodium* spp. in mice, 241
Trypanosoma brucei rhodesiense, is a set of variants of *T. b. brucei* rather than a subspecies, 89
Trypanosoma brucei ssp., enzyme variation in, 89
Trypanosoma platydactyli Catouillard 1909, is synonymous with *Leishmania tarentolae* Weynon 1921, 67

Ultrastructure, of tegumental fractions from protoscoleces of *Echinococcus granulosus*, 111
of the developing tegument and gut of *Fellodistomum fellis*, 193
Ultrastructural localization, of cytochrome oxidase in Nematode spp., 145
Ultrastructural studies, of the cephalic sense organs in *Raillietiella* spp., 411
on the spermatozoon of *Nematospiroides dubius*, 179
Ultrastructural study, of biopsy specimens from the abomasum of sheep infected with *Haemonchus contortus*, 357
of the digestive process of *Plasmodium chabaudi*, 579

Variable antigen types, evidence for a switch in expression of by trypanosomes in the mammalian host, 79
Viral genome, possible involvement of in obligatory multiparasitism, 1

Winter moth, transmission of microsporidia between generations of, 11
